REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 8 and 15, the prior arts fail to teach or fairly suggest an apparatus for communicating by radio comprising:

a frond end section being tunable to different frequency channels in each of a plurality of frequency band for use as a radio frequency channel within a selected one of the frequency bands; and

a frequency change-over selector for selecting a frequency channel in a frequency band to transmit and receive data to avoid disturbance that may be present on an initially selected frequency channel on an initially selected frequency channel, in combination with other limitations, as specified in the independent claims 1, 8 and 15.

Regarding claim 7, 14, and 18, the prior arts fail to teach or fairly suggest a wireless communication equipment, comprising:

a front end section being tunable to different frequency channels in each of a plurality of frequency bands for use as a radio frequency a frequency channel within a selected one of the frequency bands; and

a control section for selecting one of the frequency bands and a frequency channel within the selected frequency band to avoid interference that otherwise would impair communication, in combination with other limitations, as specified in the independent claims 7, 14 and 18.
